

ENCIFORM-RM (Litter disinfectant & fumigant)

"Birds best perform with Enciform"

INTRODUCTION

ENCIFORM-RM is a fine white crystalline powder. Liberated in the form of formaldehyde gas, with heat under controlled condition, rapid conversion is assured, converting all **ENCIFORM-RM** to the gaseous state, which quickly fills the area to be fumigated. This gas is pure and contains no contaminants. Formaldehyde gas spreads throughout an enclosed area, reaching all cracks and crevices. It is lethal to all viruses, moulds and bacteria.

ACTIVE INGREDIENT

Complex long chain Polyoxymethylene compound 97% ± 1% with the highest Degree of polymersiation

APPLICATION

For fumigation of farms, hatcheries, feed godowns, incubators, hatcherers, egg rooms, chick nest boxes and litter disinfection.

DIRECTIONS FOR USE

APPLICATION	DOSAGE	METHOD
Fumigation of farms hatcheries incubators	1 gm per 10 cu.ft.or 1 gm per sq. ft	Doors, windows and other openings should be closed. Switch on the hot plate and leave the room. Allow sufficient time for the gas to be liberated. Retain the liberated gas for a reasonable time (best overnight).Recommended rate of fumigation, 500 gms in 30 minutes.
Chick nest pots	a pinch	Just put into the nest pots.
Litter disinfection	1.60 kgs every 5000 sq. ft. area	Sprinkle/mix with litter before placement of chicks Repeat every 10 days even in presence of birds
Pit Management	1 Kg/100 sq.ft	Sprinkle in to the pit to get 1/8" layer before placement of dead birds.Then sprinkle liberally on top of the dead birds and cover up the soil

ADVANTAGES

1. User friendly
2. No corrosive liquids to spatter and no stained clothing
3. You can use exact amounts to do the job properly
4. No over dosage or under dosage
5. You can release the gas either quickly or slowly, by controlling the amount of heat
6. No harmful chemicals or by-products are produced when it is used
7. Very stable and can be kept indefinitely without losing potency or effectiveness
8. No evaporation
9. Low cost

PRECAUTIONS/STORAGE

1. During fumigation wear suitable respiratory equipments, protective clothing and gloves
2. Store in a safe place away from sources of heat, ignition, food, drink and feed stuffs
3. In case of contact with eyes rinse immediately with plenty of water and seek medical advice

PACKING

25 Kg's HM-HDPE drums containing 25 Nos of 1 Kg packets.
