

# ENCIKOL-FF

## INTRODUCTION

**ENCIKOL-FF** is a multi-functional, multi-action disinfectant for use in poultry for the maintenance of health, hygiene, sanitation and prevention of diseases in birds. It is recommended for regular usage in the farms and hatcheries to maintain health, hygiene and sanitation, besides substantially improving productivity and drastically reducing mortality and medication costs. **ENCIKOL-FF** when sprayed in sheds in presence of birds at user dilutions (0.1%), even if it gets to feed and water is absolutely harmless to the birds. **ENCIKOL-FF** is the only disinfectant which is effective against a broad range of microorganisms including algae, fungus and virus as compared to other commonly used disinfectants.

## ACTIVE INGREDIENT

**ENCIKOL-FF** is made up of Glutaraldehyde, DDAC, Benzalkonium Chloride, Stabilizers and other relevant ingredients in an Aqueous base

## APPLICATIONS

A 1% solution of **ENCIKOL-FF** is sufficient for use. **ENCIKOL FF** is miscible in water at all proportions. Regular usage of **ENCIKOL-FF** ensures lowering of microbial load to the accepted limits in the farms, hatcheries and related places.

## DIRECTIONS FOR USE

APPLICATION	DILUTION IN 1 LTR WATER & METHOD OF USAGE
Empty Sheds	2% or 20 ml (spray with high pressure equipment)
Equipments	1% or 10 ml (soaking for 30 minutes)
Feed stores	1% or 10 ml (spray)
Foot baths	0.5% or 5 ml (dip feet, daily change)
Hatching eggs	1% or 10 ml (dipping and air drying)
Housed birds	0.2% or 2 ml (spraying in air towards ceiling once / twice a week)
Incubator/Hatcherer	1% or 10 ml (spray/mop)
Incubator tank	2% or 20 ml (Add to the tank)
Vehicle dip	1% or 10 ml (Wheels dipping, daily change)
Visitors shoes	2% or 20 ml (Spray)

## ADVANTAGES

1. Cuts disinfection costs by half
2. Very fast acting
3. Totally safe for handling and use at user dilutions.
4. Not harmful to birds or humans working on the farm
5. Effective even in hard water and in presence of organic matter
6. Excellent detergency and wetting properties
7. Non corrosive and non staining
8. Almost completely bio-degradable
9. Broad spectrum of activity against algae, bacteria, fungus and virus, being totally cidal
10. Highly stable
11. Avoids development of resistance due to multi ingredients system

## PACKING SIZE

1 litre, 5 litre and 50 litre
