ENCIKOL-PH

**(The superior multi-action, multi-functional disinfectant
for bird/animal health, hygiene and sanitation)**

"Prevent Disease all with Encikol"

INTRODUCTION

ENCIKOL-PH is a multi-functional, multi-action disinfectant for use in poultry for the maintenance of health, hygiene, sanitation and prevention of diseases in birds. It contains sophisticated stabilisers and ingredients without which the product would not be stable and also not be effective. When sprayed in sheds in presence of birds at user dilutions (0.2%), even if it gets into feed and water is absolutely harmless to the birds. It is the only disinfectant which is effective against a broad range micro-organisms including algae, fungus and virus as compared to other commonly used disinfectants. It is recommended for regular usage in the farms and hatcheries to maintain health, hygiene and sanitation, besides substantially improving productivity and drastically reducing mortality and medication costs. It is very fast acting and is totally cidal in its action and hence there is no chance of the organisms developing resistance.

COMPOSITION

ENCIKOL-PH is a high concentration combination of various aldehydes with cationic biocides for optimum disinfection.

ACTIVE INGREDIENTS

EACH 100ml CONTAINS

Glutaraldehyde	: - 9ml
Formaldehyde	: - 10ml
Benzalkonium Chloride	: - 8ml
Stabilizers	: - 5ml
Other relevant ingredients	: - 3ml
Aqueous base	: - q.s

DIRECTION FOR USE

1. A 2% solution of ENCIKOL-PH is sufficient for use.
2. ENCIKOL-PH is miscible in water at all proportions.
3. Regular usage of ENCIKOL-PH ensures lowering of microbial load to the accepted limits in the farms, hatcheries and related places.

APPLICATIONS

1. Broiler and breeder farms
2. Pig breeding and fattening calf and cattle farms
3. Small animal husbandries
4. Commercial egg production.

ENCIKOL-PH should be only applied on well-cleaned surfaces with the following equipment

1. Conventional spraying equipment
2. High pressure sprayers
3. Knapsack sprayers
4. Foam equipment
5. Thermonebulizer apparatus

ENCIKOL-PH is the disinfectant of your choice for

1. Disinfection of all kind of surfaces
2. Aerial disinfection
3. Thermonebulizers
4. Application in foot and wheel dips

PRECAUTIONS

1. Avoid direct contact with the concentrated solution of ENCIKOL-PH
2. If contact occurs, flush continuously with plenty of water
3. Keep out of reach of children

PACKING SIZE

1 litre, 5 litre and 50 litres

 C-238, MIDC, Turbhe, Navi Mumbai-400705, India
