POLYCAR-NC (Alkaline cleaner cum detergent)

INTRODUCTION

POLYCAR-NC is a multi-spectrum heavy duty concentrated cleaner with high alkaline properties and excellent soil suspending power. POLYCAR-NC is an ideal choice for removal of all kinds of organic soiling in farms, hatcheries, slaughter houses and food processing plants. POLYCAR-NC combines superior cleaning power with excellent foaming ability, outstanding de-greasing and de-oiling capacities. Depending on the grade of contamination POLYCAR-NC can be used in dilution up to 2%.

ACTIVE INGREDIENT

High purity anionic and non ionic surfactants with complexing agents in an alkaline base with speciality additives.

DIRECTIONS FOR USE

Pre soak all surfaces such as floor, wall, ceiling etc. with a solution of 2% POLYCAR-NC (2 Ltrs. of POLYCAR-NC added to 98 Ltrs. of water)

Spray the solution under low pressure. Soaking time approx. 60 minutes, don't let treated surfaces dry up

Spray out the entire surface area with water using high pressure equipment.

ADVANTAGES

1. Lower water consumption
2. Effective disinfection
3. Powerful detergency
4. Non staining
5. Highly stable and economical
6. Almost completely biodegradable

PRECAUTIONS

1. Avoid contact with the concentrated solution
2. Use gloves and goggles while handling POLYCAR-NC
