## ENCIPOOL-BB

(For Swimming Pool)

### INTRODUCTION

ENCIPOOL-BB helps to keep the water balanced. In addition to creating soft and soothing water. This product helps suppress algae growth and is proven to improve water clarity. It also softens water to skin and eyes. ENCIPOOL-BB is stable in water, is not degraded by sunlight. It plays a very important role. It keeps an easy to maintain and trouble free swimming pool.

### COMPOSITION

Sodium Tetra borate : Q.S

Hydrogen Peroxide : Q.S

### ADVANTAGES

- Enhances chlorine performance and extends chemical life
- Maintains stable pH further reducing other chemical cost
- Makes skin feel smooth
- Only a single application with annual top-up is needed
- By helping to maintain a stable pH, ENCIPOOL-BB reduces the amount of chemicals needed to adjust pH levels
- Your energy costs will be reduced because using ENCIPOOL-BB allows you reduce the pump time required to keep their pools clean by up to 40%
- Since ENCIPOOL-BB keeps pH under control, the effectiveness of chlorine not be tampered, means algae will not there
- When you use ENCIPOOL-BB, the water will remain clear for a long since chloramine (or combines chlorine) does not form quickly as compared to a pool without ENCIPOOL-BB agent.

### APPLICATIONS

| Size of Pool | Qty of ENCIPOOL - BB |
|--------------|----------------------|
| 2000 ltr     | 650 ml               |
| 4000 ltr     | 1250 ml              |
