

ENCIWEEK

ACIDIC CLEANER (CONCENTRATE)

NARSIPUR

INTRODUCTION

NARSIPUR is a renowned ISO 9001:2015 certified company engaged in the manufacture and sale of various hygiene and sanitation chemicals and products. ENCIWEEK has been developed by NARSIPUR as a new generation Milk analyser acidic cleaner with the objective of easily and effectively removing all types of deposits.

ADVANTAGES

- Quickly and completely soluble
- Easily rinsed off
- Easy and quick to apply
- Non corrosive to the metal surfaces
- Highly economical
- Does not impart off flavours to milk and milk products
- Eco-friendly as it is almost completely biodegradable

USAGE for milk analyser cleaning

Use 10% (1:10) solution for periodical weekly cleaning

PREPARATION of working solution

Use pipette to add 50ml ENCIWEEK slowly to a beaker or any other glassware with 450ml distilled water. Stir and pour into a labelled container.

CAUTION for use:

Keep the concentrate out of reach of children.

If the concentrate is accidentally spilled on the skin, flush the area immediately with running water.

Never transfer the concentrate into unlabelled or improperly labelled containers.

PRESENTATION

In plastic bottles of 200 ml each
