

The superior multi-action, multi-functional disinfectant
for aqua health, hygiene and sanitation

NARSIPUR

ENCIKOL-AH

INTRODUCTION

ENCIKOL-AH is a multi-functional, multi-action disinfectant for use in aqua for the maintenance of health, hygiene, sanitation and prevention of diseases in shrimps and prawns.

ENCIKOL-AH is the only disinfectant which is effective against a broad range of micro-organisms including fungus and virus as compared to other commonly used disinfectants.

ENCIKOL-AH is recommended for regular usage in aquaculture.

ENCIKOL-AH is very fast acting and is totally cidal in its action and hence there is no chance of the organisms developing resistance.

ACTIVE INGREDIENTS

ENCIKOL-AH is made up of a highly balanced complex composition containing mono and dialdehydes besides specially chosen quaternary ammonium compounds together with relevant ingredients in an aqueous base.

ADVANTAGES:

- Gives best results on regular usage
- Is harmless to shrimps and prawns at user dilutions
- Cuts disinfection costs by **half**
- Very fast acting
- Totally safe for handling and use at user dilutions.
- Effective even in hard water and in presence of organic matter
- Broad spectrum of activity against, bacteria, fungus and virus
- Highly stable
- Avoids development of resistance due to multi ingredients system
- Regular usage of **ENCIKOL-AH** ensures lowering of microbial load
- Helps shrimps and prawns to overcome moulting difficulties

APPLICATIONS and DIRECTIONS FOR USE

Dosage: 1 Ltr per acre of 3 feet water depth
1.5 Ltr per acre of above 3 feet water depth
or as recommended by your aquaculture consultant

Dilute recommended quantity in water outside the pond. Then spray uniformly throughout the pond surface.

STORAGE:

Store in a cool and shady place away from direct heat.
