

ENCIFY-FA*

(SPECIALISED FEED ACIDIFIER)

INTRODUCTION:

NARSIPUR is an established (1989) and reputed ISO 9001: 2018 certified manufacturing and exporting company, covering a wide range of health, hygiene, sanitation, and cleaning chemicals for animal and human healthcare, with an in-house, advanced and well-equipped R&D facility. Narsipur after much study and research have introduced an innovative and specialised feed acidifier **ENCIFY-FA**. This product is specifically designed for poultry birds, which operates very effectively from feed to gut. The selective Organic acids in **ENCIFY-FA** function by reducing the pH levels in the gut, thereby directly targeting intestinal pathogens.

ACTIVE INGREDIENTS:

A specialized blend of active feed grade organic acids in a compatible base to give the best possible effects.

- Inhibition of pathogenic bacteria like *E. coli* and *Salmonella*.
- Improving gut health and reducing the proliferation of harmful bacteria in the gastrointestinal tract.
- Improved nutrient digestibility and absorption.
- Controls the microbial contamination of feed by creating acidic conditions in the feed & the gut.
- Enhanced gut integrity and immune function.
- Enhances protein digestion
- Better feed conversion efficiency, leading to improved growth and health.
- Reduced overall medication cost.
- Reduced Mortality.

DIRECTION FOR USE:

500 gm per ton of feed.

STORAGE STABILITY:

Ensure that **ENCIFY-FA** is stored in a cool and dry place away from heat and light to prevent degradation.
